

2014 Canadian National Master Hunt Test

General Information for all Competitors and Visitors

1. All vehicles must be parked WEST of the tree line in the Parking and Airing area or NORTH of the overflow campground (just North of the road leaving the campground). No vehicles should be parked in the Clubhouse/Campground area.
2. Assigned campsites are marked on each site - as well, there is a master list in the Clubhouse if you wish to check where you are to park your trailer.
3. The campground is very full, so electrical power usage must be limited to water pumps, refrigerators, lights and small electronic devices. NO electric hot water heaters, air conditioners or toaster. Whenever possible use propane. Be considerate of your fellow campers.
4. All garbage is to be packaged in plastic garbage bags available at the Clubhouse and placed in the Loraas disposal bin located on the West side of the Clubgrounds by the big shed. No loose garbage please.
5. Please recycle all cans and bottles. Place empty recyclables in the appropriate containers on the porch of the Clubhouse. Please remove all tops.
6. Training birds are to be disposed of in the metal garbage cans provided near the Loraas bin (marked) Under NO CIRCUMSTANCES should training birds be disposed of in the Loraas bin.
7. Members of the media, landowners and the general public may stop by and observe the trial. Please be friendly, explain what is happening and help them to avoid interfering with the tests.
8. The Saskatoon Retriever Club has arranged for trailer pumpouts. If you need this service please purchase a YELLOW ribbon at the Banquet or at the Bar/Beer Garden (open each evening from 6pm-9pm) and tie it to your front hitch. Pumpouts will be available in the morning on Tuesday and Friday. The cost is \$15/pumpout. The pumpout service has suggested that on the day of pumpout you open the dump valve on the toilet and prop it open so that the suction does not collapse your holding tank. *The Saskatoon Retriever Club and the pumpout contractor will not be held responsible for any damage that may occur.*
9. Good drinking water will be available at all times in the water trailer. If you wish to have the water tank on your trailer filled tie a BLUE ribbon to your front hitch (available at the Banquet or at the Bar/Beer Garden (open each evening from 6pm-9pm)).

10. Dogs should be aired in the designated area West of the Campground. If your dog has an accident in the Clubhouse/Camping area please clean it up. Also, fill in any holes your dog may dig. Do not tie dogs to trees as this will damage the trees.

11. When driving please stay on designated trails and only park where directed by the traffic committee. Do not drive or train on any of our neighbor's property unless it has been designated a Pre-Trial training site (see maps available in Clubhouse and in your welcome bag) and is marked as such.

12. Callbacks will be posted in the Clubhouse and announced as soon as they are available after each test. The next test will also be posted as will any special instructions from the judges.

**THANK YOU FOR YOUR COOPERATION
HAVE A GREAT TRIAL**

Camping fees are \$10/night for this special event. There is a blue box in the Clubhouse with envelopes to pay your fees. Please put your name on the envelope so that we know you paid. Thank you.
